ABOUT ME

I'm a passionate software developer with expertise in full stack web development. My curiosity fuels my drive to create innovative solutions that enhance user experiences. Currently, I'm exploring the fascinating world of blockchain technologies. I thrive on building practical projects and actively contribute to the open-source community.

EDUCATION

- General Shivdev Singh Diwan Gurbachan Singh Khalsa College, Patiala | 2020-2023
  Bachelor Of Computer Application
  GPA : 7.5

- Jetking Noida Learning Center | 2023-2024
  Blockchain and Full Stack Web Development

EXPERIENCES

Full stack web developer *2023-2024*

Web Wizards (freelance team)

- Built various full stack web applications using modern technologies like React, Next.js, Node.js, tailwind CSS, etc.
- Worked on multiple projects and have gained valuable experience in working with various technologies and team work.
- Routinely inspect server code for speed optimization
- Server setup and maintenance using nginx, cloudflare, etc.

PROFESSIONAL SKILLS

Frontend Development
HTML, CSS, JS, Reactjs, Tailwind CSS, Nextjs

Backend Development
Nodejs, Bun, PHP, API, Django, Express

Programming Languages
js, ts, python, PHP, Rust, Golang Solidity

Database
RDBMS, SQL, NO-SQL databases, Mongodb, firebase

Web3
Ethereum, Solidity, Stellar, Smart Contracts, Hardhat

Essentials
Git, Github, Team work, Adaptable Learner, Communication, AI tools

- Built scalable web applications using **Next.js**, **Node.js**, and **TypeScript**, ensuring seamless front-end and back-end integration.
- Designed and implemented responsive, modern user interfaces with **Tailwind CSS**, optimizing user experience across devices.
- Managed **SQL** and **NoSQL** databases, ensuring data integrity, high availability, and performance tuning.
- Developed and deployed **RESTful APIs** and handled complex **API integrations**, enabling robust communication between systems.
- Created cross-platform mobile applications with **React Native**, ensuring high performance and usability.
- Streamlined development workflows by implementing **CI/CD pipelines**, enabling efficient testing and deployment cycles.
- Administered **Linux servers**, ensuring secure and reliable application hosting with minimal downtime.
- Leveraged **Git** for version control and collaborative development, maintaining clean and efficient codebases.
- Collaborated with DevOps teams to ensure continuous delivery and automated deployment in production environments.
